

Mission Statement:

Hoops and Homework is a safe, nurturing, licensed neighborhood-based after-school and summer program which expands opportunities for youth living in the lowest income sections of Framingham.

We serve children who live in low income rental housing developments, provide staff and volunteers to supervise children in the completion of their school work, promote reading and math skills, and offer a variety of recreational, cultural, and enrichment activities including healthy meals every day.

It is also our mission to provide full scholarships to the residents of the highest poverty sections of Framingham so that their children can attend our programs which are located in these neighborhoods
